Traka 21 Innovative Standalone Plug and Play Key System

No ordinary key management system

Traka 21's innovative plug and play system provides small to medium size businesses with the very latest in intelligent key management. Simple, efficient and cost effective, Traka 21 helps trace and account for every key or keyset, which are individually locked in place, ensuring that critical business operations are never jeopardized

TRAKA 21

The Key to business security

Despite the increasing sophistication of commercial security, the management of business critical keys remains weak link. At best they'll be issued from a security desk. At worst they will be hung on a hook in open view or hidden somewhere at the back of a manager's desk drawer. If you lose them or they fall into the wrong hands, you risk losing access to buildings, facilities, secure areas, equipment, machinery, lockers, cabinets and vehicles

Our Traka 21 Innovated Key & Asset Management Systems Save Time and Money for Business and Organizations by Providing Secure Management of Facilities Keys

Traka 21 Intelligent Key/Asset Management for all Types of Businesses and Organizations

**For Storing/Securing all
Businesses/Organizations
Facility/Asset Keys**

Traka 21

The Traka 21 embedded software provides a full audit trail and real time reporting, detailing who has used and accessed the cabinet and when. As a result, staff become more accountable and our customers have found that keys are returned at the end of shifts. This leads to reduce security requirements with less loss, damage and liability

Benefits

- Manage, control and report on the use of facility and asset key
- Identify when the cabinet was accessed and by whom
- Restrict access to specific site and facility keys for staff and contractors
- Improve shift start-ups by ensuring important keys are always in place and ready to use
- Completely remove the need for manual key issue
- Reduce losses and damage by making users fully accountable
- 24/7 Audit trails of all key cabinet access event

Do you know where your valuable facilities keys are? With Traka 21 innovated key management systems you'll always know where your keys are 24/7

How does it work?

Ensuring that the right keys are available to the right people at the right times is a concern for every organizations.

User is required to enter his/her unique PIN code to gain access to the cabinet

All keys and keysets are individually locked by the Traka 21 unit. Green LED's indicate those keys to which this user has access. The user cannot remove keys highlighted by the Red LEDs which continue to remain locked in place

Amber light indicates return position

Traka 21 security seal

The secure one time security seal is cost effective and simple to apply without the need for specialist tools

Traka 21 iFob

Once attached to an iFob with a robust security seal. Individual keys or keysets are assigned a specific receptor within the Traka cabinet and locked in place until released by an authorized user
