**Signage** is a key element of our Queue-Access system designs, users need to know where to enter and what to do when they reach the head of the queue. Our range of bracket signs is designed to provide simple, clear communication speeding customer flow and reducing stress. The signs are made from heavy duty 1/4" acrylic with sleek radius corners and fitted to our post top adapter which slips over the stanchion for a firm fit. Signs are available from stock with a variety of messages or can be custom printed with your message or logo. Post top adapters are also available to fit all major brands of stanchions

**Specifications:**  
Sign Dimensions: 7" x 11"  
Weight: 1.3lbs

Heavy Duty  
1/4" Acrylic

Radius  
Corners

Easy Fit Post  
Top Adapters

Adapters to fit all  
Major Brands

**Razor signs** are a unique, eye catching method of communicating to users of the customer queue. The tall, slim shape avoids the problem of square signs protruding into the queue space and being damaged by pedestrian contact. These signs are made from heavy duty 1/4" frosted acrylic, giving sturdy construction with a sophisticated, contemporary look. Adapters are available to allow Razor signs to be fitted to any major brand of retracting belt or rope stanchion. Signs are available from stock with a variety of messages or can be custom printed with your message or logo

**Specifications:**  
Sign Dimensions: 5" x 15"  
Weight: 1.2lbs  
Colors: Frosted Acrylic

RELIABLE FUNCTIONAL AND AFFORDABLE  
QUEUING SOLUTIONS

Our **Heavy Duty** sign frames are manufactured with a 3/4" wide steel boarder making them very robust and ideal for heavy traffic environments. Available in 6 post top sizes these frames accept signs up to 1/4" thick; alternatively two sheets of clear acrylic can be supplied for use with paper signs. The frames have a top opening and the sign simply slides in making replacement easy. Frames for retracting belt barriers are fitted with a post top adapter which slips over the top of the post for a firm fit. Frames for rope stanchions are fitted with a stud and screw directly into the stanchion's tapped top. Adapters and studs are available to fit all major brands of stanchions.
