Take a Number
System

Provide your customers with the comfort of knowing when they will be served next

Your customers will always be served faster and in the order in which they arrived with a Take a Number system. Customers can relax without having to compete for service when you use Next Please Take a Number Systems. With a variety of ticket options and a large easy to read displays, the Next Please Take a Number system is economically priced, easy to setup and user friendly

The Voice Box 5120V display combines the industry standard solid state take-a-number display with an integrated audio voice announce unit. Every time the "now serving" number is changed, the system will audibly announce the current number being shown on the display. You can record and upload your own voice files, or use our included professional male or female voice files for the audio number announcements.

Easy to use wireless remote with Advance and Go Back Number Feature

Wireless Operation

With our convenient remote control you can advance the numbers, go back a number, or reset the numbers. Multiple remotes can be utilized within line of sight for up to 30 feet. Every Display is equipped with an internal audio voice announcement system with simple east-to-follow installation instructions; customizing your Take a Number system has never been easier.
